B1 level in three months. This course will focus to medical language by the end of the course so that you are better prepared when you start working in Norway. The official surveys (Norskprove 3) will be on 25.5 - 5.6 in Oslo and six weeks later the results of this examination will be obtained. The cost of this test will run on account of the candidate and are about € 75 / for the oral and € 75 / for writing.

If in this waiting time and if the client is willing to, and the nurse agrees in working in practice, this could be possible in home care or residential care for the elderly in any destination in Southern Norway (from Oslo to South) in order to apply what they learned in the language during the course as well as gain confidence in speaking and listening Norwegian language and getting used to Norwegian way of Life.

Once the test results and the authorization are obtained, different labor contracts with duration of 3,6,12 or 12+12 months will be offered by Multivekst AS. The scope of work will be in home care and nursing homes.

The candidate will be required to accept a job offer that will be according to their level of language, experience and qualifications within one month of notice of the employment offer.

In these months the candidate will get confidence in speaking the language and familiar with the customs and Nurses ' work in Norway.

If needed and offered and you are willing to, you can work night shifts, holidays, etc .. to be paid extra according to Norwegian Law, thus you will come to a very interesting month-end salary and gain experience and fluency in the Norwegian language .

The more you talk Norwegian, you will have better job opportunities in Norway. To work in a hospital usually a higher level and a good command of the language will be requested therefore it will depend on each candidate what their goals are and how fast can achieve with hard work and perseverance which are required.

The job of a nurse in home care contains a part that is assimilated to the nursing assistant in Spain, caring for the patient at home, talk to him, feed him in a position or put compression stockings, etc ...

In Norway, the responsibility for the geriatric care is the responsibility of society, not of the children as in Spain. Therefore it is expected to be a loving, empathetic and dedicated person to others to succeed in this country as a professional.

Also of course you will make most typical nursing technicians works also such as cures, giving medicine, applying pressings, etc...

If your goal is to work in a hospital, if you have an acceptable Norwegian level, this will be possible and will depend on you.

The workplace will be in the south of Oslo and Bergen in Norway. We offer homes to share for 3-4 employees Multivekst AS candidates and this will be deducted from the monthly salary.

NORWEGIAN COURSE :

We offer a course through a Norwegian University named Folkeuniversitetet Trondheim. This course will begin in mid- February 2015 and is to be understood "online" and will last for 250 hours. The schedule is intensive weekday morning (beginning about 5 hours per day and as levels up, are added hours) and an individual work 2-3 hours a day is expected to reach the desired level within 3 months. This will depend on the candidate. In addition, the course will be directed to the Norwegian health sector by the end of the course that like this you have basic vocabulary that is required when starting work.

If the candidate does not attend classes, did not cooperate with the effort required or interrupt the course of Norwegian, will have to pay the course fee of € 3,500 back.

The work permit will process the candidate and we will assist in the process, providing documentation to fill, etc. We take care of the homologation of titles for candidates and we take over the costs of both the approval and payment of the license fee but the last responsibility will be for the candidate filling out the application form.
